SUMMARY

Innovative fourth-semester Computer Science student at BINUS University specializing in Data Analytics and AI, with hands-on experience building ML pipelines, full-stack applications, and data-driven solutions. Currently serving as Vice President of Ureeka BINUS overseeing 5 core divisions and previously directed 10+ projects at AIESEC in BINUS with strong project management and financial oversight. Deloitte Data Analytics certified, with advancing expertise in ML/DL, SQL-based analytics, Tableau, and Python to deliver actionable insights and solve complex industrial challenges.

SKILLS

AI and Machine Learning Deep Learning (CNN/EfficientNet), Python (PyTorch, Scikit-Learn, OpenCV, Transformers/Hugging Face), C, and Web Technologies	Leadership and Team Management Cross-functional collaboration, delegating, mentoring, driving team performance
Data Analytics and Visualization SQL (PostgreSQL/MySQL), Tableau, Python (Pandas, NumPy, Matplotlib, Seaborn), Excel, Google Spreadsheets	Communication Stakeholder presentation, technical writing, active listening, conflict resolution
Software Development and Architecture Full-stack Web Development (Laravel, HTML, CSS, Javascript), SDLC, System Architecture Design, Web Technologies	Critical Thinking and Problem-solving Analytical reasoning, data-driven decision making, adaptability under pressure
Enterprise and Project Management Financial Budgeting and Forecasting, Strategic Planning, Resource Allocation, Notion, Leadership	Entrepreneurship and Innovation Initiative-taking, product thinking, identifying opportunities, growth mindset
UI/UX and Design Figma, User Interface Design (Mobile, Tablet and Desktop), and Business Process Modeling	Languages English (IELTS Band 8), Indonesian (Native), and Mandarin (HSK 5 candidate)

EDUCATION

Bina Nusantara University - Tangerang Bachelor of Computer Science Cumulative GPA: 3.96 / 4.00	(2024 - Present)
Saint John's School Meruya - DKI Jakarta Senior High School, Science Stream Final Grade: 95.61 / 100	(2021 - 2024)

EXPERIENCE

Deepfake Detection Pipeline Research - Jakarta February 2026 - Present <i>AI Researcher</i> Research for ICCSCI 2026 - Authored a research paper titled “Enhancing Deepfake Detection Using SVM and Random Forest with Hybrid CNN-Frequency Features” for ICCSCI 2026. - Developed a hybrid detection pipeline combining a frozen EfficientNet-B0 backbone with frequency domain analysis. - Implemented a dual-stream feature extractor using 2D-DFT to capture spectral artifacts in image data. - Achieved 81.30% classification accuracy using SVM on 1536-dimensional CNN-frequency feature vectors.
Potato Algorithmo Bootcamp - Jakarta May 2025 - July 2025 <i>Co-founder and Part time Teacher</i> Private Coding Bootcamp - Engaged and converted over 50 out of 500+ prospective students into course participants. - Designed and delivered an Algorithm and Programming course (C programming language) to 50+ students, implementing innovative teaching strategies to enhance engagement and comprehension. - Designed course materials, including posters, outlines, marketing content, and registration systems. - Set course pricing strategies and tracked financial performance.

TECHNICAL PROJECTS

Project Leader and System Architect of Carbonis (Sustainability Tech) May 2026 - Present - Lead the strategic development of a carbon credit exchange platform enabling waste management sites (TPA) to monetize organic waste emission savings. - Designed the system architecture and franchise model logic to ensure scalability for industrial adoption.

- Managing end-to-end project lifecycles, implementing frontend and backend (Golang), resource allocation and team.
- Pitched the project at the BRICS IIC 2026 International Competition for recognition across emerging markets.

Full-stack Developer and Project Manager of Desktop Photobooth Web Application May 2026 - Present

- Leading a development team to build a high-performance photobooth web application using the Laravel framework.
- Managing the full SDLC from requirement gathering and database schema design through to implementation.
- Developing robust backend logic and responsive to frontend interfaces to ensure a seamless user experience.

Full-stack Developer of AI Chatbot for UMKM Feedback March 2026 - Present

- Building an AI-integrated chatbot to bridge buyer feedback from WhatsApp directly to the seller’s analytics dashboard.
- Implementing Sentiment Analysis using transformer models (XML-RoBERTa, IndoBERTweet, IndoRoBERTa) to classify customer reviews into actionable business insights.
- Overseeing end-to-end integration between messaging APIs and analytical modules to enhance SME decision-making.

ORGANIZATIONAL EXPERIENCE

Ureeka BINUS - DKI Jakarta

February 2026 - Present *Vice President*

- Overseeing and coordinating the strategic operations of 5 core divisions: Training & Course, Human Resources, Marketing, Partnership, and Web Development.
- Fostering professional collaborations with university faculty and lecturers to organize technical training programs, technology competitions, and academic workshops.
- Leading cross-divisional coordination to ensure consistent execution of organizational initiatives and member engagement.

February 2025 - January 2026 *Active Hackathon Participant*

- Competed in 5+ business and technology competitions, gaining mentorship in mobile development, AI and IoT.
- Recognized as a Top 10 finalist in Samsung Solve for Tomorrow 2025, selected from all national competitors.
- Collaborated in cross-functional teams to develop prototypes and pitch innovative solutions for competitions.

AIESEC in BINUS - DKI Jakarta

February 2025 - January 2026 *Team Member of Project Controller*

- Tracked and monitored 10+ concurrent projects, ensuring compliance with AIESEC and BINUS policies.
- Led end-to-end planning and execution for initiatives (e.g. Global Village, Local Conference, Youth Career Compass)
- Collaborated with Executive Boards to optimize timelines, resources, and project outcomes.

July 2025 - September 2025 *Organizing Committee Vice President of Finance in Youth Today x Join AIESEC*

- Developed and executed budget plans, monitored expenses, and ensured cost efficiency for large-scale events.
- Oversaw financial communications, processed 800+ invoices in one month, and improved operational workflows.
- Trained Finance teams and other divisions on financial procedures and delegated responsibilities effectively.
- Produced accurate financial reports and maintained audit-ready documentation.

March 2025 - August 2025 *Organizing Committee Vice President of Finance of Incoming Global Volunteer*

- Designed and managed budgets in line with AIESEC Indonesia’s 70/30 financial framework.
- Controlled spending, managed reimbursements, and verified transactions to maintain financial accuracy.
- Trained Finance teams and collaborated with other divisions to ensure smooth financial operations.
- Compiled comprehensive financial reports and prepared documentation for audits.

HONOR & AWARDS

- [2025] Top 10 Finalist Samsung Innovation Campus 2025
- [2025] Semifinalist of UGM FindIT! Competition
- [2025] Best General Board of the Month in AIESEC in BINUS (February - April, July)
- [2024] Top 10 Finalist UI / UX Competition
- [2024] Senior High School Valedictorian in Saint John’s School Meruya

CERTIFICATIONS & COURSES

- [\[2025\] Oracle Cloud Infrastructure 2025 Certified Foundations Associate](#)
- [\[2025\] IBM Course Data Classification and Summarization Using IBM Granite”](#)
- [\[2025\] Coursera “Google Analytics Professional Certificate”](#)
- [\[2025\] Deloitte “Data Analytics Job Simulation”](#)
- [2025] SAP “ASEAN Data Explorers Enablement Session”
- [2025] Microsoft “Pelatihan Azure AI Fundamentals: Microsoft Belajar AI dari Dasar”
- [\[2025\] NVIDIA “Fundamentals of Deep Learning”](#)
- [\[2025\] HackerRank “Problem Solving Basic Certificate”](#)

[2024] RevoU “Introduction to Data Analytics”
[2023] IELTS - Achieved an overall grade of band 8

ACTIVITIES

Leadership and Volunteering Experience

Incoming Global Volunteer Summer Peak AIESEC in BINUS 2025 | Teacher Volunteer in Saint John’s School Meruya 2024 | Keyboardist at Church Mass 2024 | Kemah Budaya Atsanti Participant 2023 | Event Speaker (MC) in Cettiya Pannashika 2021
